BENEFITING

suncoastcharitiesforchildren.org

"SERVING LOCAL CHILDREN, TEENS, AND ADULTS WITH SPECIAL NEEDS SINCE 1985"

New Computer Lab

Four new laptop computers were purchased to assist approx. 80 special athletes with on-line coaching and trainings, virtual meetings, social events, and school reports. Volunteers will be training special athletes, and in turn, special athletes train their peers on basic computer usage.

New Sensory Room Renovations To An Existing Sensory Room

Both sensory rooms will provide a safe and supported space for approx. 40 individuals with special needs who require additional sensory-related supports. It will assist them in transitioning back into their day quickly and efficiently.

Feeding At-Risk Children

Support was provided to the "Growing Healthy Kids" Program. This program provides an average of 17,312 meals and 8,656 snacks each year to approx. 53 preschool children with disabilities. Many of these children are in foster placement, come from single parent homes, or are from working families living under the Federal poverty level.

Installation Of A New Playground

Over 75 children enrolled in the Head Start Educational program (3-5 years) now have a quality outdoor space to play, which is important for healthy brain development, interaction with others, and better learning skills while back inside the classroom.

Multiple Capital Improvements Child/Family Support Services

Over 3,000 children and families will benefit from the installation of new classroom windows, new air conditioning units, and necessary structural repairs made at their Sarasota and North Port campus locations, saving this agency over \$150,000.00. Support was also provided to their Fetal Alcohol Spectrum Disorders Clinic impacting over 250 infants and children who are at a high risk of developing seizures.

New Multi-Purpose Building

The construction of this building will help this agency provide the sport of baseball in a safe environment to over 100 individuals with physical and/or cognitive challenges.
